

Shelly,

After hearing you explaining your situation with the dentist and not going to or having one, I wanted to share some things with you. I had been petrified of the dentist from a very early age and was too afraid and also I could never afford to take care of the things I needed for myself. I put it off for many years also. My ex-husband was a BIG reason; I wasn't allowed to spend money to go to the dentist. I hadn't been in probably 6 years or more. I was in a tremendous amount of pain and needed so much work and I was afraid that I would be told the only option would be to pull my teeth. I was referred to Dr. Levy by Ashly's dentist whom I trust a great deal.

Dr. Levy's entire staff is just amazing!!! I was absolutely petrified but helped me to overcome it. Dr. Levy did EXTREMELY EXTENSIVE work to save several of my teeth that were nearly beyond repair!!! You wouldn't even recognize me if you saw what my teeth looked like before he fixed them!!! In a way I wish I had pictures, but I honestly don't know if I would want to see the before one's again.

I would highly recommend him to ANYONE needing a dentist, Dr. Levy is an AMAZING and unbelievably talented dentist!!! If you are not going to the dentist just because you are afraid, I really urge you to at least go for a cleaning and ex-rays (your insurance will cover this)! I can honestly tell you from experience that the work he did to save my teeth (teeth that technically shouldn't have been able to be saved) was very extensive but he NEVER EVER HURT ME!!!! Before, I would literally have a Major Panic Attack before having to go to the dentist, but after my numerous visits to Dr. Levy, I don't feel that way anymore. . . I would NEVER go to another dentist but with Dr. Levy there is no fear. Please don't do what I did and wait until it is almost too late!!!! You are a young attractive woman and you don't want to go the rest of your life with pain or an unattractive smile.
